

# PICKUP CAMPERS 2025

**AZAR4<sup>®</sup>**

# WHAT MAKES AZAR4 STAND OUT?

- A dynamic, streamlined shape combined with exceptional durability and lightweight design, thanks to its fiberglass monocoque construction.
- The lightest construction of its kind on the market.
- No fixed costs or transport fees.
- Minimal impact on fuel consumption.
- Comfortable travel in temperatures ranging from  $-40^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$ , made possible by closed-cell PUR foam insulation.
- Customization to individual user needs.
- High level of manual work during production.
- Designed for 50 years of use.
- Compatibility with all popular pickup models.
- Low center of gravity.
- Ability to tow any trailer.

# A SOLUTION FOR EVERYONE

Our range includes ten AZAR4® mobile capsule models—four tailored for European pickups and six for American pickups. The equipment for each version is based on the analysis of customer needs and the dimensions of the vehicles for which they are designed.

# EUROPEAN MODELS

European models focus on maximizing the use of the small cargo space of pickups.

Regardless of the model you choose, you can be confident that the interior layout and features are designed to provide full comfort while traveling, no matter the climate zone, road conditions, or terrain.

## Each model includes:

- **Construction:** Lightweight monolithic composite body, PUR thermal insulation, upholstered walls and ceiling, PVC flooring, rear door with lock and steps, side windows (700x300 mm) and roof window (960x655 mm) with regulation, blinds, mosquito nets, double rear door porthole.
- **Exterior equipment:** Multi-layer polyurethane coating, anodized aluminum mounting strips, stainless steel entry handles, roof handles, reinforced platform, support brackets (4 pcs.), pickup mounting system, LED parking lights, reversing lights, directional lights, stop lights, 13-pin cable, mounting kit, anodized aluminum rear panel, radio antenna, side LED lighting, photovoltaic panel mounting strips, heating preparation.
- **Water installation:** External water inlet.
- **Electrical installation:** 230V connection, wiring for devices and lighting, photovoltaic-ready installation.
- **Interior finishing:** High-quality fabrics and upholstery.

## PREMIUM

The AZAR4® mobile capsule in the Premium version is dedicated to comfortable travel for up to 4 people! In addition to a double, full-size bed, it offers the option of creating an additional two-person sleeping space.

This fully functional space includes a dedicated sleeping area with a full-size bed, a living area with two sofas and a detachable table, a kitchen area with an integrated sink and stove, and a splash-proof bathroom with a sink, waterproof shower tray, and shower. The furniture is made of lightweight, highly durable marine-grade plywood, finished with aesthetic and durable natural veneers.

AZAR4 Premium provides luxury and functionality for 3-4 people during travel.

The capsule offers the possibility of customization to individual needs.

## OFF-ROAD COMFORT

The AZAR4® Off-road Comfort mobile capsule combines off-road expedition reliability with exceptional comfort. It includes sleeping, living, kitchen, and bathroom areas.

It provides comfortable sleeping space for 3 people, featuring a foam mattress bed and two sofas in the living area that can be converted into a bed. It has a large number of cabinets and storage compartments. The kitchen features a stainless steel sink and a portable stove (optional two-burner gas stove), while the splash-proof bathroom offers a waterproof shower tray, sink, and shower. The furniture is made of lightweight marine-grade plywood coated with natural hardwax oil, emphasizing durability and aesthetics.

**Off-road Comfort is the ideal capsule for those seeking both reliability and comfort.**

The capsule offers the possibility of customization to individual needs.

What's inside?

## SPECIFICATION OF THE MODEL

- **Water system:** 49L clean water tank, pump, indicator, gray water tanks (25L, 19L).
- **Electrical system:** Control panel, voltmeter, fuses, AUTOTERM AIR 2D heating with control panel + ventilation, 230V, USB, and 12V sockets.
- **Lighting:** LEDs in the living area and bathroom.
- **Sleeping area:** Bed (2000x1400 mm), lockers made of lightweight marine-grade plywood coated with natural hardwax oil.
- **Living area:** Detachable, sliding table with HPL top, foldable sofas (750x440 mm into a 1740x750 mm bed), veneered marine-grade plywood cabinets, composite cabinet doors, Bluetooth radio, speakers, smoke detector.
- **Kitchen area:** Sink, portable/two-burner gas stove, veneered marine-grade plywood cabinets, HPL-coated countertops, gas sensor, fire extinguisher.
- **Bathroom:** Composite module, waterproof shower tray, sink, shower, ventilation chimney.

Full model specifications are available at [azar4.com/our-offer](http://azar4.com/our-offer)

## OFF-ROAD

AZAR4® Off-road mobile capsule is a reliable space created for enthusiasts of demanding off-road expeditions. It provides comfortable sleeping conditions for 3 people, featuring two beds with dual-layer foam mattresses.

It offers a functional living area with a large worktop, a sliding table, and a sink. It includes storage for a portable toilet. Thanks to spacious cabinets, you can conveniently store specialized equipment and supplies. The interior of the capsule features furniture made of lightweight, durable marine-grade plywood coated with natural hardwax oil, ensuring durability and elegance.

This is an excellent solution for those who value solidity and reliability in challenging terrains.

The capsule offers the possibility of customization to individual needs.

What's inside?

## SPECIFICATION OF THE MODEL

- **Water system:** 49L clean water tank, pump, indicator, gray water tanks (19L).
- **Electrical system:** Control panel, voltmeter, fuses, AUTOTERM AIR 2D heating with control panel + ventilation, 230V, USB, 12V sockets.
- **Lighting:** LEDs in the living area.
- **Sleeping area:** Bed with a foam mattress (2000x1400 mm), additional bed (2000x650 mm), backrest above the additional bed, lockers made of lightweight marine-grade plywood coated with natural hardwax oil.
- **Living area:** Sliding table with HPL top, cabinetry made of lightweight marine-grade plywood coated with natural hardwax oil, composite cabinet doors, Bluetooth radio, speakers, smoke detector.
- **Kitchen area:** Sink, cutlery drawer, cabinetry made of lightweight marine-grade plywood coated with natural hardwax oil, HPL-coated countertops, fire extinguisher.

## STANDARD

The AZAR4® Standard mobile capsule is a flexible base, ideal for those who want to design their own interior.

It comes without beds and furniture but is fully prepared externally, with complete thermal insulation, an electrical system, and finished walls, ceiling, and floor.

The Standard capsule is a versatile base offering freedom in interior arrangement, allowing customization for travel, work, or other uses.

The capsule offers the possibility of customization to individual needs.

What's inside?

## SPECIFICATION OF THE MODEL

The **AZAR4® Standard** model includes all the basic elements of the capsules: a lightweight and durable monolithic composite body covered with a multi-layer polyurethane coating, full thermal insulation, solid external equipment, a fully prepared electrical system, and upholstered interior finishes.

The interior is empty and ready for arrangement according to the user's individual needs. This model can be additionally equipped with optional elements such as a bathroom module or heating system to enhance its functionality.

You can entrust the project to us or handle it independently.

Full model specifications are available at [azar4.com/our-offer](http://azar4.com/our-offer)

# AMERICAN MODELS

Models for American pickups make the most of the truck bed area, which is much larger than European pickups.

Thanks to the larger truck bed dimensions, the PLUS and PLUS XL series models have increased volume and extended lower space in the capsule. This translates into greater functionality and comfort.

## Each model includes:

- **Construction:** Lightweight monolithic composite body, PUR thermal insulation, upholstered walls and ceiling, PVC flooring, rear door with lock and steps, side windows (700x300 mm) and roof window (960x655 mm) with regulation, blinds, mosquito nets, double rear door porthole.
- **Exterior equipment:** Multi-layer polyurethane coating, anodized aluminum mounting strips, stainless steel entry handles, roof handles, reinforced platform, support brackets (4 pcs.), pickup mounting system, LED parking lights, reversing lights, directional lights, stop lights, 13-pin cable, mounting kit, anodized aluminum rear panel, radio antenna, side LED lighting, photovoltaic panel mounting strips, heating preparation.
- **Water installation:** External water inlet.
- **Electrical installation:** 230V connection, wiring for devices and lighting, photovoltaic-ready installation.
- **Interior finishing:** High-quality fabrics and upholstery.

## PREMIUM PLUS/PLUS XL

AZAR4® Premium Plus and Premium Plus XL models offer convenience and space. The capsules provide comfortable sleeping conditions for up to 4 people.

Their interiors include a sleeping area with a full-size bed, a living area with two foldable sofas that convert into an additional bed and a sliding, detachable table, a kitchen area with a two-burner gas stove and stainless steel sink, and a bathroom area with a waterproof shower tray, sink, and shower. The larger volume of the Premium Plus XL model allows for the installation of a 225 WP photovoltaic panel. Furniture is made of lightweight marine-grade plywood coated with a durable and aesthetic veneer, ensuring both durability and elegance.

These capsules are ideal for those who value space, comfort, and functionality during long-distance travel.

The capsules offer the possibility of customization to individual needs.

What's inside?

## SPECIFICATION OF THE MODEL

- **Water system:** 60L clean water tank, pump, indicator, gray water tanks (20L, 19L).
- **Electrical system:** Control panel, voltmeter, fuses, AUTOTERM AIR 2D heating with control panel + ventilation, 230V, USB, 12V sockets.
- **Lighting:** LEDs in the living area, bathroom, and kitchen.
- **Sleeping area:** Bed (2000x1400 mm\* or 2000x1600 mm\*\*), partition mechanism, lockers made of lightweight veneered marine-grade plywood.
- **Living area:** Detachable, sliding table with HPL top, foldable sofas (900x440 mm\* or 900x425 mm\*\* into beds measuring 1740x900 mm\* or 1940x900 mm\*\*), cabinetry made of lightweight veneered marine-grade plywood, composite cabinet doors, Bluetooth radio, speakers, smoke detector.
- **Kitchen area:** Sink, two-burner gas stove, cabinetry made of lightweight veneered marine-grade plywood, HPL-coated countertops, gas sensor, fire extinguisher.
- **Bathroom:** Composite module, waterproof shower tray, sink, shower, ventilation chimney.

## OFF-ROAD PLUS/PLUS XL

AZAR4® Off-road PLUS and Off-road PLUS XL are models designed for demanding off-road expeditions, offering more space than the Off-road model. The capsules provide comfortable sleeping conditions for 3 people, thanks to two beds with foam mattresses. The interior also features a practical sliding table, numerous cabinets for essential equipment, and spacious furniture made of lightweight marine-grade plywood finished with natural oil wax.

Thanks to its larger volume, the Off-road PLUS XL capsule allows for the installation of a larger 225 WP photovoltaic panel, enabling even greater independence during travel.

This is an ideal solution for those who value space, reliability, and comfort in extreme conditions.

The capsules offer the possibility of customization to individual needs.

What's inside?

## SPECIFICATION OF THE MODEL

- **Water installation:** 49 l fresh water tank, pump, indicator, gray water tanks (19 l).
- **Electrical installation:** Control panel, voltmeter, fuses, AUTOTERM AIR 2D heating with control panel + ventilation, 230V sockets, USB, 12V.
- **Lighting:** LEDs in the living area.
- **Sleeping area:** Bed with foam mattress (2000x1400 mm\* or 2000x1600 mm\*\*), additional bed (2000x700 mm\* or 2000x780 mm\*\*), storage compartments made of lightweight marine-grade plywood coated with natural oil wax.
- **Living area:** Sliding table with HPL coating, furniture made of lightweight marine-grade plywood coated with natural oil wax, composite cabinet doors, Bluetooth radio, speakers, smoke detector.
- **Kitchen area:** Sink, cutlery drawer, cabinets made of lightweight marine-grade plywood coated with natural oil wax, HPL-coated countertops, fire extinguisher.

\* Applicable to the Off-road PLUS model

\*\* Applicable to the Off-road PLUS XL model

Full model specifications are available at [azar4.com/our-offer](http://azar4.com/our-offer)

## STANDARD PLUS/PLUS XL

AZAR4® Standard PLUS and Standard PLUS XL are flexible bases, perfect for those who want to design their own interior.

The models differ in size – the PLUS XL version offers a larger volume, allowing the installation of a 225 WP photovoltaic panel. Both capsules are fully prepared externally, with complete thermal insulation, electrical installation, and wall, ceiling, and floor finishes, making them an excellent starting point for further customization.

Standard PLUS and Standard PLUS XL are versatile bases that can be adapted to individual needs, whether for work, travel, or other purposes.

The capsules offer the possibility of customization to individual needs.

What's inside?

## SPECIFICATION OF THE MODEL

The **AZAR4® Standard PLUS** and **Standard PLUS XL** models include all the basic components of the capsules: a lightweight and durable monolithic composite body coated with a multi-layer polyurethane finish, complete thermal insulation, robust external equipment, fully prepared electrical installation, and upholstered interior finishes.

The interior is empty and ready for customization according to the user's individual needs. These models can also be equipped with optional elements such as a bathroom module or heating system to increase functionality.

You can entrust the project realization to us or handle it yourself.
